OCT 17 1969

Dear Salva--

It is wonderful to share such good news!
But what a preposterously long time it took.

I know you will understand when I say
what a relief and gratification this is to
me from a strictly introverted personal
standpoint. 1958 made no sense at all be-
fore 1969. Maybe I can honestly begin to
enjoy it now; the student the better when
the teacher has been honored too.

It has been too long since seeing you.
I miss you.

All the best,
